No. 3180-C/37

Station Madras, Dated the 12th October, 1937.

From (Name L.B. Green Esq:, M.B.E.,
(Designation) Director of Industries.

To The Secretary to the Government of Madras,
Development Department.

Sir,

The Superintendent, Government Industrial School Bellary, reports that the Superintending Engineer, Bellary Division, has placed an order with him for providing barbe wire fencing around the Agricultural Research Station, Siruguppa, a place thirty-two miles by road from Bellary. Thi order has been accepted by the Superintendent as the work affords some practice ~~some practice~~ to the students. The Superintendent requests that permission may be given for deputing workmen and apprentices to the workspot to erect fencing and to pay them conveyance charges and daily

allowance of four annas each. In the circumstances stated I request that sanction may be accorded for the payment of travelling allowance to the workmen and apprentices at the rates admissible to Government servants of grade XIII under annexure I to the Madras Travelling Allowance Rules. The expenditure which has been foreseen has been included in the estimate for the work and will be debited to the job concerned.

2. In this connexion, I may say that I intend proposing an additional order in respect of "outdoor work", to the draft standing orders governing the employment and condition of service of the workmen in the Industrial Schools, submitted with my letter No.2057-C/37 dated 11th June 1937.

for Director of Industries.

Finance GSR

The Superintendent Cooch Industrial School, Bellary, has suggested the payment to the workmen and apprentices of Conveyance charges (obviously actual bus fares) plus daily allowance at 4 annas. The D.I. has however proposed the payment of t.a. at the rates admissible to Cooch servants in Grade XIII - re as for inferior servants. The rates proposed by Dcs are however higher.*

Submitted that as there seems to be no reason for allowing anything more than the rates suggested by the Supdt of the Industrial School and as he would have included only the Cost according to his proposals in the estimates furnished by him to the Agricultural Dept; Finance may suggest that the workmen and apprentices may be allowed the actual Conveyance Charges plus daily allowance at 4 as proposed by the

* Mileage at 2 annas has been proposed in the case of sup 1 anna
